Best practices for **all** businesses, essential and non-essential

WORKSITES	EMPLOYEES	TO PROTECT CUSTOMERS
<ul style="list-style-type: none"> • Deputize workplace coordinator(s) charged with addressing COVID-19 issues • Maintain 6-foot distancing when possible; discourage shared spaces • Frequently disinfect all high-touch areas (Additional Guidance) • Post signage for employees and customers on good hygiene • Ensure proper ventilation (OSHA guidance) • Avoid gatherings (meetings, waiting rooms, etc) of more than 10 people • Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions) where possible (Additional Guidance) <ul style="list-style-type: none"> ○ Best practice is to implement a temperature check station at the entrance to the business. If this is not feasible, employee will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business • Eliminate or regularly disinfect any items in common spaces (i.e., break rooms) that are shared between individuals, e.g.,, condiments, coffee makers, vending machines) (Additional Guidance) • Provide appropriate protective gear like gloves, masks, and face coverings and encourage appropriate use (Additional Guidance) 	<ul style="list-style-type: none"> • Require employees showing any symptoms or signs of sickness, or who has been in contact with known positive cases to stay home. Connect employees to company or state benefits providers • Provide flexible or remote scheduling for employees who need to continue to observe Stay-at-Home, who may have child or elder care obligations, or who live with a person who still needs to observe Stay-at-Home due to underlying condition, age, or other factors • Encourage and enable remote work whenever possible • Minimize all in-person meetings • Provide hand washing facilities/stations and hand sanitizer • Encourage breaks to wash hands or use hand sanitizer • Phase shifts and breaks to reduce employee density • Wear appropriate protective gear like gloves, masks, and face coverings and encourage appropriate use (Additional Guidance) • (Guidance to keep employees & customers safe) 	<ul style="list-style-type: none"> • Create special hours for people at higher risk of severe illness from COVID-19 • Encourage and facilitate 6-foot distancing inside of the business for all patrons • Face coverings are required to be worn in all public indoor spaces. • Provide hand sanitizer at entrance • Install shields or barriers where possible between customers and employees • Use contactless payment solutions, no touch trash cans, etc. whenever possible • (Guidance to keep employees and customers safe)

OFFICE-BASED BUSINESSES

Find the capacity limits for each [county dial level](#).

WORKSPACES	PRACTICES AND EMPLOYEES	TO PROTECT CUSTOMERS (IF APPLICABLE)
<ul style="list-style-type: none"> • Ensure a minimum of 6 feet of space between all desks/workspaces. • Modify flow of people traffic to minimize contacts (e.g. doors for entry or exit only). • Conduct office cleaning with increased frequency and supplement with high-frequency sanitization of high-touch areas (e.g. doors, stairwell handles, books, light switches, elevator switches and buttons, etc.). (Additional Guidance) • Ensure proper ventilation. • Provide employees with sanitization products and guidance on daily workspace cleaning routines. • Post signage for employees and customers on good hygiene and new office practices, and make regular announcements to remind employees and/or customers to follow distancing guidelines. • Keep a record of employees, customers, and visitors (i.e. sign in/out) to enable contact tracing. • Encourage the use of digital files rather than paper formats (e.g., documentation, invoices, inspections, forms, agendas). • Ensure clear planning, preparedness and organization in the workplace. This includes assigning a COVID coordinator to facilitate planning and communication, developing a plan for resources like cleaning supplies and internal regular (daily or weekly) communication, planning for employees to be out of the office for quarantine or caring for 	<ul style="list-style-type: none"> • Maintain in-office occupancy at no more than 50%, 25%, or 10% of posted occupancy (depending on dial level) at one time by maximizing use of telecommuting and developing in-office rotation. Office-based businesses in counties at Level Purple: Extreme Risk on the dial must close to in-person work. • Allow for flexible work schedules, where possible, to lessen the need to be in the office during normal business hours. This could include allowing employees to work evenings or weekends when the office is traditionally less crowded or closed schedules. • Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions) where possible. (Additional Guidance) <ul style="list-style-type: none"> • Best practice is to implement a temperature check station at the entrance to the business. If this is not feasible, employee will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business. • Minimize the number of in-person meetings and maintain adequate 6-foot distancing in those meetings. Use online conferencing, email, or the phone instead of in-person meetings, even when people are in the same building, whenever possible. • Provide flexible or remote scheduling for employees who need to continue to observe Stay-at-Home, who may have child or elder care obligations, or who live with a person who still needs to observe Stay-at-Home due to underlying condition, age, or other factors. • Provide guidance and encouragement on maintaining 6 foot distancing and taking breaks to wash hands. • Face coverings are required to be worn in all public indoor spaces. (Additional Guidance) 	<ul style="list-style-type: none"> • Implement 6-foot distancing measures (e.g., marked space in checkout lines). • Face coverings are required to be worn in all public indoor spaces. • Provide hand sanitizer at entrances and other high-traffic locations. • Implement hours where service is only provided to people at higher risk of severe illness from COVID-19, if possible. Enhance precautions during these hours. <hr/> <p>This guidance is for, but is not limited to:</p> <ul style="list-style-type: none"> • Accountants and accounting firms • Architecture, engineering and land surveying businesses/firms • Landscape architect businesses/firms • Land surveyor businesses/firms • Private investigator businesses • Fantasy contest operator businesses • Non-transplant tissue banks • Appraisal management companies • Real estate offices

others, and considering how new precautions will impact workflow, etc.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The office **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

- Other corporate offices and private firms

CHILD CARE FACILITIES

- Child care facilities may operate under their Department of Human Services licensed capacity and group size.
- This allows additional facilities to open or expand as increased workforce returns.
- Child care facilities must follow all state and local mask/face covering orders.

WORKSPACES	EMPLOYEES	TO PROTECT CHILDREN/PARENTS
<ul style="list-style-type: none"> • Prioritize care for children of essential workers, parents returning to work, and job seekers. • Keep groups of children together with same staff when possible. • Conduct daily temperature checks and monitor symptoms in employees and students and any person entering the building. Refer symptomatic employees to the CDPHE Symptom Support tool. (Additional Guidance) • Require handwashing upon arrival and enable handwashing throughout the day. • Limit the number of child-staff and child-child interaction in common spaces as much as possible (e.g. playground equipment, hallways, etc.). • Encourage 6-foot distancing and, where possible, implement distancing systems while learning. • Stagger meal times and encourage individual meals (no family-style dining). • Disinfect all high-touch areas at start and end of the day and, when possible, throughout the day. (Additional Guidance) • Limit the toys in use to those that are easily cleanable, non-porous, with smooth surfaces and eliminate soft, fabric toys, dress-up clothing, sensory tables and water play. • Establish a clear plan to isolate staff and children who have symptoms. • Determine plan for substitute staff members to cover for ill or quarantined staff. 	<ul style="list-style-type: none"> • Require use of masks (preferred medical grade if available, otherwise cloth). (Additional Guidance) • Provide guidance and encouragement on maintaining 6-foot distancing. • Provide guidance and encouragement on frequent handwashing. • Provide training to all staff specific to all issues in the public health order. • Require staff to stay home when showing any symptoms or signs of sickness. • Provide all staff with support and referrals for their mental health needs. <hr/> <p>This guidance is for:</p> <ul style="list-style-type: none"> • Licensed and license-exempt child care centers • Licensed and license-exempt In-home child care • Building-based school-age programs • Preschools that are regulated by the school district <p>This guidance is not for:</p> <ul style="list-style-type: none"> • Outdoor-based or mobile school-age programs • Children's resident camps 	<ul style="list-style-type: none"> • Consider implementing curbside pick-up and drop-off. • Implement alternative child check-in and check-out procedures that minimize parent touching of shared items (pens, paper, etc.). • Require parents to keep children home when showing any symptoms or signs of sickness. • Encourage parents to take their children's temperature prior to bringing them to child care. • Provide masks for children age 3+ per current CDPHE guidance, no masks for children 0-3. • Remove masks from children during naps and place nap mats 6 feet apart. • Provide frequent communication with all families of enrolled children specific to all issues in the public health order. • Masks are required to be worn in all public indoor spaces. <hr/> <p>Additional resources and guidelines:</p> <ul style="list-style-type: none"> • Face Covering Guidance for Child Care Operations during COVID-19 Response

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The facility **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

FIELD SERVICES AND REAL ESTATE

EMPLOYEES

- Adhere to all general rules or guidance on social gathering limitations when working in the field, including in someone's business or personal home.
- Meetings, showings, appraisals, consultations, open houses, etc. can occur in accordance with [indoor event requirements](#).
- Implement procedures for field-based employees to monitor for symptoms and report to management daily on health status. Refer symptomatic employees to the [CDPHE Symptom Support tool](#). ([Additional Guidance](#))
- Maintain 6-foot distancing from other employees and customers.
- Masks are required to be worn in all public indoor spaces.
- Change gloves between customers.
- When possible, post signage or give reminders for employees and customers on good hygiene and distancing practices.
- Inquire whether third-party homes have symptomatic individuals or individuals who have contact with known positive cases and, if they do, cease any in-person interaction and limit any in-home activities to only those which are critical and can be done without risk to service provider.
- Maintain detailed log of customer interactions to enable contact tracing (if ever needed).
- Prioritize remote work and/or personal protective equipment for people at higher risk of severe illness from COVID-19.
- Disinfect high-touch surfaces and tools or equipment after each customer visit. ([Additional Guidance](#))
- Provide guidance and encouragement on personal sanitation including frequently washing hands.
- Require service providers to stay home if showing any symptoms or signs of sickness or if they have had contact with a known positive case.

This guidance is for, but is not limited to:

- Real estate, including marketing services.
- Lawn care and landscaping.
- House cleaning, including carpet cleaning and window cleaning.
- Electricians and plumbers.

TO PROTECT CUSTOMERS

- Provide estimates, invoices, and other documentation electronically (no paper).
- Seek contactless payment options whenever possible.
- Maintain 6-foot distancing.
- Use masks.
- For transportation network companies, limo services, and call-and-demand transportation riders, only request for necessary travel and wash hands before and after ride.

Additional resources and guidelines:

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The individual or company **must** notify and cooperate with their local public health agency on next steps.
 - Local public health agency contacts can be found [here](#).
 - Outbreak guidance for non-healthcare facilities can be found [here](#).
-
- Appraisers.
 - Land surveyors.
 - Architects.
 - Engineers.
 - Private investigators.

- Handyman services.
- General contractors, tile setters, carpenters, construction.
- Home inspectors.

- Landscape architects.
- Transportation network companies, limo services and call and demand transportation (e.g. taxis).

LIMITED HEALTH CARE SETTINGS

WORKSITES	EMPLOYEES	TO PROTECT PATIENTS
<ul style="list-style-type: none"> • Employ strict hygiene guidelines and sanitization procedures for all contact surfaces and tools. • Limit capacity as determined by the current county dial level. Use whichever number is fewer. <ul style="list-style-type: none"> ○ Level Green - Protect Our Neighbors: 50% capacity or 500 people. ○ Level Blue - Caution: 50% capacity or 50 people. ○ Level Yellow - Concern: 50% capacity or 50 people. ○ Level Orange - High Risk: 25% capacity or 25 people. ○ Level Red - Severe Risk: 25% capacity or 25 people. ○ Level Purple - Extreme Risk: 10% capacity or 25 people. • Ensure a minimum of 6 feet of separation between clients/customers when not directly performing service. • Post signage for employees and customers on good hygiene and safety measures being taken. • Disinfect all financial transaction equipment after each use (Additional Guidance). • Minimize in-home services with remote alternatives where possible (e.g. drive-through, virtual meetings). 	<ul style="list-style-type: none"> • Conduct symptom and temperature checks and refer symptomatic employees to the CDPHE Symptom Support tool. (Additional Guidance) <ul style="list-style-type: none"> ○ Best practice is to implement a temperature check station at the entrance to the business. If this is not feasible, employee will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business. • Wear medical grade mask and gloves. If patient removes face covering for service, also wear a face shield. • Change gloves between customers and wash hands. • Clean and disinfect work space between each appointment. 	<ul style="list-style-type: none"> • Continue to conduct telehealth appointments whenever possible. • Provide service by appointment only (no walk-ins or waiting). • Require patients to wear face coverings or masks, unless must be removed for service or would inhibit the patient's health. • Conduct symptoms check for customers of high contact services before they enter for their appointment and do not serve symptomatic clients. • Provide contactless payment options whenever possible. • Provide virtual waiting rooms - patients wait in their vehicle until their appointment begins. <p>IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES</p> <ul style="list-style-type: none"> • The worksite must notify and cooperate with their local public health agency on next steps. • Local public health agency contacts can be found here. • Outbreak guidance for non-healthcare facilities can be found here.

This guidance is for the services of the following, provided they are being offered in a health care setting and capacity (not for personal services):

- Acupuncture (not related to personal services).
- Athletic training (not related to personal services).
- Audiology services.
- Services by hearing aid providers.
- Chiropractic care.
- Massage therapy (not related to personal services).
- Naturopathic care.
- Occupational therapy services.
- Physical therapy.
- Speech language pathology services.

This guidance is not for:

- Medical, dental, and veterinary services.

NON-CRITICAL MANUFACTURING

NOTE: Manufactured foods industry please consult current [CDPHE guidance](#).

WORKSITES	EMPLOYEES	CUSTOMERS
<ul style="list-style-type: none"> Limit capacity per room as determined by the current county dial level, using whichever number is fewer: <ul style="list-style-type: none"> Level Green - Protect Our Neighbors: 50% capacity or 500 people. Level Blue - Caution: 50% capacity or 175 people. Level Yellow - Concern: 50% capacity or 50 people, or up to 100 people within their usable space calculated using the Distancing Space Calculator. Level Orange - High Risk: 25% capacity or 50 people. Level Red - Severe Risk: 25% capacity or 50 people. Level Purple - Extreme Risk: 10% capacity or 25 people. Require sick workers to stay home. Establish a system for employees to alert their supervisors if they are experiencing symptoms. Conduct daily temperature checks and monitor symptoms in employees. Refer symptomatic employees to the CDPHE Symptom Support tool. <ul style="list-style-type: none"> Best practice is to implement a temperature/symptom check station at the entrance to the business. If not feasible, employee will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business. Implement policies to limit group interactions including staggering of shift changes, breaks, lunches, etc. Implement procedures to ensure 6 feet of distance between employees, unless doing so impacts worker safety. Arrange "one-way" flow of work and people; avoid having people face each other. Use impermeable barriers between workers whenever possible. Limit the sharing of tools, equipment, or other resources to the greatest extent possible. If not feasible, implement thorough and frequent cleaning protocols for all shared items. Conduct daily disinfection and full cleaning in-between shifts using CDPHE guidance. Establish protocols and provide supplies to increase frequency of cleaning in work and common spaces, in accordance with OSHA requirements and CDPHE guidance. Require hand hygiene upon arrival and departure, establish set hand hygiene time frames throughout shifts, and provide additional hand-washing stations if possible. Promote use of contactless entry, payments etc. as applicable and possible (e.g. eliminate fingerprint entry). 	<ul style="list-style-type: none"> Provide guidance about how to comply with 6 foot distancing. Designate workers to monitor and facilitate distancing on processing floor lines. Require use of masks or face coverings unless doing so would inhibit the employee's health. Require frequent handwashing upon arrival, departure, and throughout shifts. Disinfect work stations between shifts and/or at the end of the day. Require employees to stay home if sick or exhibiting symptoms. Group employees into teams or shifts that stick together (e.g., avoid mixing 10 workers who work in different areas). Stagger lunch and break times. Encourage all employees not critical to in-person operations to continue working from home/remotely. Wear masks during carpooling or other public transportation. <hr/> <p>This guidance is for:</p> <ul style="list-style-type: none"> Manufacturers not currently defined as a Critical Manufacturer in Appendix F of PHO 20-28. 	<ul style="list-style-type: none"> Restrict all non-essential external visitors. Conduct symptom checks for any essential visitors who will interact with employees. Require essential visitors to wear masks, unless doing so would inhibit the visitor's health. Encourage 6 foot distancing and implement procedures to limit person-to-person interaction in inbound/outbound shipping areas. Make handwashing or hand sanitizing available to customers as much as possible. <hr/> <p>Additional resources and guidelines covid19.colorado.gov/guidance e-resources</p> <ul style="list-style-type: none"> Manufactured Foods COVID-19 Implementation of Public Health Order Manufactured Food Facility Workplace Precautions

IF THERE IS A CONFIRMED

- Reduce use of shared papers (e.g. estimates, invoices, and other documentation) and encourage shift to paperless, electronic alternatives.
- Ensure ventilation of work and break areas is in line with [OSHA guidance](#).
- Support transportation arrangements that discourage carpooling.
- Develop a Preparedness and Response plan ([OSHA guidance](#)).
- Keep a record of employees and visitors (i.e. sign in/out) to enable contact tracing.
- Stagger breaks and lunches to keep common areas free of groups greater than 10. Encourage employees to take lunch individually.
- Prohibit large gatherings (currently no more than 10 people) on the job site, such as all-hands meetings and lunches.

CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The worksite **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

NURSING HOMES AND CONGREGATE CARE FACILITIES

WORKSITES	EMPLOYEES	TO PROTECT RESIDENTS
<ul style="list-style-type: none"> ● Restrict visitation of non-essential individuals. <ul style="list-style-type: none"> ○ Facilities shall post signage clearly summarizing the essential individual visitor policy, such as vendors providing necessary supplies or services for the facility or residents, and individuals necessary for the physical and/or mental well-being of the residents. ● All facilities must develop an appropriate isolation plan and file w/ CDPHE no later than May 1, 2020. ● Frequently disinfect all high-touch areas (Additional Guidance). ● Install touchless hand sanitizing stations at entrances and in high-traffic areas. <hr/> <p>This guidance is for :</p> <ul style="list-style-type: none"> ● Long-term care facilities. ● Skilled nursing facilities. ● Nursing facilities. ● Assisted living facilities. ● Intermediate care facilities. ● Group homes. ● Independent living facilities. 	<ul style="list-style-type: none"> ● All employees, contractors, and essential individuals entering the premises must complete health screening prior to entering facility (Additional Guidance). ● Require frequent handwashing upon arrival, departure, and throughout shifts. ● Screening documentation must be maintained until further notice and made available upon request to CDPHE. After screening, if an essential visitor is allowed into the facility, they must: <ul style="list-style-type: none"> ○ Limit their movement within the facility to the resident's room. ○ Limit surfaces touched. ○ Use appropriate personal protective equipment (PPE) – gown, gloves, and mask. ○ Limit physical contact with resident. ● Only be two essential visitors per resident at a given time. 	<ul style="list-style-type: none"> ● Limited communal dining and group activities. ● Active health screen for all residents. ● When visitation is necessary or allowable (e.g., in end-of-life scenarios), facilities should make efforts to allow for safe visitation for residents. ● No congregating. <hr/> <p>Additional resources and guidelines:</p> <ul style="list-style-type: none"> ● covid19.colorado.gov/ltcf ● Indoor visits in residential care facilities ● Outdoor visits in residential care facilities <p>IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES</p> <ul style="list-style-type: none"> ● The worksite must notify and cooperate with their local public health agency on next steps. ● Local public health agency contacts can be found here. ● Outbreak guidance for non-healthcare facilities can be found here.

PERSONAL SERVICES

WORKSPACES	EMPLOYEES	TO PROTECT CUSTOMERS
<ul style="list-style-type: none"> • Employ strict hygiene guidelines and frequent sanitization procedures for all contact surfaces and tools. • Ensure a minimum of 6 feet of separation between customers and employees when not directly performing service. Further ensure a minimum of 6 feet between customer and employee stations while services are being provided. • Limit capacity per room as determined by the current county dial level: <ul style="list-style-type: none"> ○ Level Green - Protect Our Neighbors: 50% capacity or 500 people. ○ Level Blue - Cautious: 50% capacity or 50 people. ○ Level Yellow - Concern: 50% capacity or 50 people, or up to 100 people within their usable space calculated using the Distancing Space Calculator. ○ Level Orange - High Risk: 25% capacity or 25 people ○ Level Red - Severe Risk: 25% capacity or 25 people ○ Level Purple - Extreme Risk: closed. • Post signage for employees and customers outlining good 	<ul style="list-style-type: none"> • Conduct symptom and temperature checks and refer symptomatic employees to the CDPHE Symptom Support tool. (Additional Guidance) <ul style="list-style-type: none"> ○ Best practice is to implement a temperature check station at the entrance to the business. If this is not feasible, employees will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business. • Wear a mask at all times (Additional Guidance). Employees performing services where the client removes their mask must also be provided and wear a face shield in addition to their face covering. In addition, it is strongly encouraged they be provided a medical grade mask instead of a cloth face covering for those services. • Face shields must be disinfected between clients. • Wear gloves as indicated by industry standards. • Wash hands and change gloves between customers. • Change gloves between pets in all pet-grooming facilities. <hr/> <p>This guidance is for:</p> <ul style="list-style-type: none"> • Professional beauty services: <ul style="list-style-type: none"> ○ Hair salons. ○ Barber shops. ○ Nail salons. ○ Esthetician services. ○ Cosmetologist services. • Body art professionals. • Personal training services for fewer than 4 people. • Pastoral services. • Pet-groomers and pet-grooming facilities. • Pet-handlers and pet-transporters. • Pet-training services. • Tailors and dry cleaners. • Sun-tanning services. • Massage therapists, non-healthcare settings. 	<ul style="list-style-type: none"> • Provide service by appointment only (no walk-ins or waiting lines). • Require customers to wear masks, except during a service that requires the removal of a mask. It should be replaced once the service is completed. • Conduct symptom checks for customers seeking or receiving high-contact services. (Additional Guidance) • Provide contactless payment options (whenever possible). <ul style="list-style-type: none"> • Communal gathering spaces, such as communal locker/changing rooms and waiting rooms should not be used. <ul style="list-style-type: none"> ○ If locker rooms or changing rooms must be used for safety or hygiene reasons, surfaces should be routinely cleaned every hour. Take actions such as closing off a series of lockers to promote physical distancing and reduce gatherings. • Maintain physical distancing requirements for drop-off and pick-up of pets in pet-grooming facilities. • Maintain physical distancing requirements, with no more than 10 people present at once for pet-training classes. • Maintain physical distancing requirements for customers picking up pets from pet transporters. • Allow no more than 10 customers to congregate at a time when picking up pets from pet transporters or at pet adoption events. <hr/> <p>Additional resources and guidelines:</p> <ul style="list-style-type: none"> • Information for Veterinary Practices • Guidelines for Public Transportation Providers • Multi-Industry Construction Guidance • Guidelines for non-healthcare industries • Employee Health Screening Form

hygiene and safety measures being taken.

- Keep a record of employees and customers (i.e. sign in/out) to enable contact tracing.
- Disinfect all financial transaction equipment after each use.
([Additional Guidance](#))
- Minimize in-home services by using remote alternatives (i.e. drive-through, virtual meetings, etc.).
- Disinfect all service equipment (tanning beds, salon chairs, etc) after each use.
- Ensure a minimum of 6 feet of separation between work stations in pet-grooming facilities.
- Minimize contact and maintain physical distancing requirements with customers for mobile pet grooming services. Avoid entering homes when possible.

- [CDPHE Cleaning Guide for COVID-19](#)

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The individual or company **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

CAMPGROUNDS AT COLORADO STATE PARKS

Group facilities, pavilions, cabins, yurts, laundry, and camp playgrounds will be phased in over time by Colorado Parks and Wildlife, with strict hygiene protocols.

CAMPSITE	RECREATOR
<ul style="list-style-type: none">• Camping by reservation only, at reduced campsite density.• All facilities will be cleaned and disinfected per CDC guidelines.• Signage to be posted in prominent locations throughout our parks, enforcing social distancing.• Provide educational materials enforcing social distancing.• Visitor centers and campground offices will be minimally staffed ensuring social distancing between employees.• Visitor centers will be closed to the public.• Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel.	<ul style="list-style-type: none">• Camp only with members of your household in your local region. Do not invite visitors to your campsite.• Use personal equipment for camping equipment (no rentals or “loaned” items).• Secure food, water, gas, and any other needed camping supplies in your home community. You should not go to a host community grocery store, restaurant, supply store, or gas station except for emergency situations.• Be prepared and plan ahead for extremely limited facilities, as many will be closed or reduced access. You must pack out your trash and waste and follow additional guidance from the Department of Natural Resources (DNR).• Do not camp if you or anyone in your household has any symptoms such as fever, coughing, or shortness of breath.• Do not engage in risky activities and strictly follow any local county fire bans as fire, search, and rescue volunteers are involved in other important public health activities right now. <hr/> <p>If a host county would like to keep campsites closed in state parks in their county, county commissioners should consult with their local public health agency, and then notify DNR and CDPHE in writing.</p>

PRIVATE CAMPGROUNDS

CAMPSITE OPERATORS

- Clean and disinfect all facilities per guidelines.
 - Group facilities, pavilions, cabins and yurts are CLOSED.
- Ensure campsites are a minimum of 6 feet apart. Consider phasing in, and only allowing every other campsite to be in use.
- Allow camping by reservation only.
- Post signs in prominent locations throughout the campground and its buildings to enforce physical distancing.
- Provide educational materials to emphasize and enforce physical distancing.
- Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel.
- Keep staff in visitors' centers and campground offices to a minimum, and set them up outdoors when possible. Ensure employees are physically distanced at least 6 feet from one another. Limit the number of customers allowed in offices to ensure physical distancing can be maintained. Keep playgrounds and other common-use areas closed.
- Implement symptom monitoring protocols for staff (including temperature monitoring and symptom screening questions) where possible ([Additional Guidance](#)).

CAMPERS

- Camp only with members of your household in your local region. Do not invite visitors to your campsite.
- Use personal equipment for camping. (No rentals or "loaned" items).
- Secure food, water, gas, and any other needed camping supplies in your home community. You should not go to a host community grocery store, restaurant, supply store, or gas station except in emergency situations.
- Be prepared and plan ahead for extremely limited facilities, as many will be closed or there may be reduced access. You must pack out your trash and waste.
- Stay home if you or anyone in your household has any symptoms such as fever, coughing, shortness of breath, sore throat, muscle pain, new loss of taste or smell, and chills.
- Do not engage in risky activities, and strictly follow any local county fire bans. Fire, search, and rescue volunteers need to prioritize other important public health activities right now.

Private campgrounds must consult with local county or municipality and their local public health agency for additional guidance and regulations.

If a host county would like to keep campsites closed, county commissioners should consult with their local public health agency, and then notify Colorado Department of Natural Resources (DNR) and CDPHE in writing.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The operator **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

CRITICAL AND NON-CRITICAL RETAIL

Find the capacity limits for each [county dial level](#).

WORKSITES	EMPLOYEES	TO PROTECT CUSTOMERS
<p>Curbside pick-up and delivery</p> <ul style="list-style-type: none"> Continue or begin operating with curbside pick-up/delivery only (e.g., bank tellers operate drive-through service only). Elevate and increase frequency of cleaning practices, including sanitization of high touch areas. (Additional Guidance) Restrict return policy to only items that can be properly sanitized prior to re-selling. Conduct daily temperature checks and monitor symptoms in employees, logging all results. Refer symptomatic employees to the CDPHE Symptom Support tool. (Additional Guidance) <ul style="list-style-type: none"> Best practice is to implement a temperature check station at the entrance to the business. If this is not feasible, employees will check for symptoms at home and report symptoms either electronically or on paper per the system created by the business. Implement contactless signatures for deliveries. Post signage for employees and customers on good hygiene and other sanitation practices. Provide a staging area outside for hands-free pick-up. <p>Open with restrictions</p> <ul style="list-style-type: none"> Critical and non-critical retail may open at capacity determined by the county's current dial level: <ul style="list-style-type: none"> Level Green - Protect Our Neighbors: 50% of the posted occupancy limit. - Level Red - Severe Risk: 50% with increased curbside pick-up and delivery. Dedicated senior and at-risk hours encouraged.
- Level Purple - Extreme Risk: Non-critical retail is closed for in-person services but may provide curbside pick-up and delivery. Critical retail may operate at 50% capacity but is strongly encouraged to prioritize curbside pick-up and delivery and limit in-person services to the greatest extent possible.
- Maintain 6 feet of distancing between customers and employees.
- Provide masks and gloves to employees.
- Ensure ability to adequately clean and disinfect both backroom and retail spaces.
- Install protective plexiglass screens at checkout counters.
- Provide dedicated in-store visit hours for people at higher risk of severe illness from COVID-19, as possible.
- Post signs at entrances notifying customers to STOP if they are sick and ask them not to enter store.
- Restrict return policy to only items that can be properly sanitized prior to re-selling.
- Conduct daily temperature checks and monitor symptoms in employees, logging all results. Refer symptomatic employees to the [CDPHE Symptom Support tool](#). ([Additional Guidance](#))
- Increase the availability of hand sanitizer, wipes, and cleaning of frequently touched surfaces (including baskets/carts) for both employees and customers.
- Disallow sampling and customers access to bulk-bin options.
- Apply floor decals in cashier and queuing areas to establish safe waiting distance.
- Close public seating areas.
- Establish one-way traffic flow through aisles.
- Continue contactless signatures for deliveries.
- Post signage for employees and customers on good hygiene and other sanitation practices.

- Customer-facing financial institutions.
- Thrift shops.
- Apothecaries.
- Vape and cigar shops (for retail only, not on-site consumption).
- Craft stores.
- Small scale indoor markets.
- Indoor malls.
- Sporting goods retailers.
- Boutiques.
- Motor vehicle dealerships.
- Liquor stores.
- Marijuana dispensaries.
- Large retail, department, discount, or outlets stores, provided that the entrance/exit opens to the outdoors and not an indoor common hallway.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The worksite **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

CHILDREN'S DAY CAMPS AND YOUTH SPORTS CAMPS

Children's residential camps that choose to operate as day camps must work with the Colorado Department of Human Services and their local public health agency (LPHA) for approval.

Day camps, including mobile and outdoor camps, must operate with restrictions and strong precautionary measures, as specified in the guidance below.

GUIDANCE FOR CAMP OPERATORS	GUIDANCE REGARDING EMPLOYEES	GUIDANCE REGARDING CAMPERS
<p>Capacity</p> <ul style="list-style-type: none">• Camps may be conducted at the following group capacities according to dial level:<ul style="list-style-type: none">○ Level Green - Protect Our Neighbors: 50% capacity or 500 campers, whichever is fewer.○ Level Blue - Caution: 25 participants indoors, 50 participants outdoors.○ Level Yellow - Concern: 10 participants indoors, 25 participants outdoors.○ Level Orange - High Risk: 10 participants outdoors only.○ Level Red - Severe Risk: 10 participants outdoors only.○ Level Purple - Extreme Risk: closed.• If the indoor space is large enough to allow for social distancing (6 feet between each camper and minimum of 36 square feet per camper), more than one stable group could be in an indoor space at the same time as long as there is adequate space between groups and safe egress is not compromised. <p>Prior to camp</p> <ul style="list-style-type: none">• Establish a plan that includes:<ul style="list-style-type: none">○ Capacity and registration of campers that accommodate required physical distancing (6 feet) and maximum group size. Physical distancing and group-size requirements apply to all camp activities, including transportation, eating, and recreational activities.○ A determination if the indoor space is large enough to allow for physical distancing (6 feet between each camper and minimum of 36 square feet per camper). If the space	<ul style="list-style-type: none">• Screen staff and volunteers for symptoms and close-contact exposures upon arrival to ensure they are symptom-free before they are cleared to work. (Additional Guidance). Encourage sick employees to use the CDPHE Symptom Support tool.• Send home staff and volunteers with symptoms consistent with COVID-19 or other communicable illnesses and recommend testing.• Require staff or volunteers sent home to adhere to isolation and exclusion requirements.• Establish protocols including isolation of the symptomatic individuals, for staff and volunteers to alert health care staff of symptoms in themselves or campers.• Determine if any staff or volunteers are at a higher risk for COVID-19 and consider whether job duties that don't involve interaction with others are advisable.• Staff and volunteers, to the extent possible, should remain with the same group of campers and maintain physical distancing of at least 6 feet whenever	<ul style="list-style-type: none">• Screen campers for symptoms and close-contact exposures at drop off, pick up, to ensure they are symptom-free before they are deemed able to attend.• Send home campers with symptoms consistent with COVID-19 or other communicable illnesses with a recommendation to get tested immediately (Testing for COVID-19) and adhere to isolation and exclusion requirements. (How to isolate)• Provide frequent communication with all families of enrolled campers related to the occurrences of COVID-19 at the camp, the camp's responses, and all issues in the public health order.• Educate campers about COVID-19 and the related protocols, and address their fears and questions.• Establish protocols for campers to self-report symptoms to staff, volunteers or health care staff.

is large enough, more than one established group could be in an indoor space at the same time as long as there is adequate space between groups and safe egress is not compromised. Capacity for square footage of usable space should be calculated using the [Social Distancing Space Calculator](#).

- o Established groups of campers, both indoors and outdoors, must not mix with other groups during any part of the day.
- o The availability of substitute staff if staff or volunteers become ill or are exposed.
- o The establishment of protocols for responding and reporting cases to health care staff, local public health authorities, and CDPHE.
- Ensure space is available to isolate ill staff and campers (cots, bedding, restrooms, and supervision).
- Provide adequate personal protective equipment (PPE) for staff who supervise and care for ill campers, staff, and volunteers.
- Ensure the on-call availability of a nurse or health care professional.
- Ensure access to public restrooms, drinkable water sources, and picnic or other eating areas during activities at outdoor locations.
- Train camp staff on current executive and public health orders in Colorado.
- Train camp health care staff on prevention, transmission, and care of COVID-19 illness.
- Prepare for closures following a case or outbreak of COVID-19.
- Require masks and physical distancing during transportation to and from the camp.
- Ensure sufficient handwashing/hand sanitizing locations and supplies are available.
- Ensure adequate cleaning and disinfecting supplies.
- Camps designated for children with special health care needs are strongly advised not to operate.
- Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel.

While camp is in session

possible, including during meals and recreation.

- Require handwashing upon arrival, before eating, and at regular intervals throughout the day.
- Require masks whenever possible.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CAMPERS OR CAMP STAFF

- The camp **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

- Campers, to the extent possible, should be kept in stable groups of 25 campers and fewer outdoors (but must stay at 10 and fewer campers indoors per group) with the same staff and counselors and maintain physical distancing of at least 6 feet during eating and recreation.
- Require handwashing upon arrival, before eating, and at regular intervals throughout the day.
- Require masks whenever possible.

- Cohorts must remain with their group and not mix with other groups during structured time or free time. This applies both indoors and outdoors.
- Frequently disinfect all high-touch areas ([Additional Guidance](#)).
- Stagger drop-off and pickup times to avoid large groups and allow for screening.
- Require staff and campers with suspected exposures, such as ill household contacts, to be sent home with a recommendation to get tested immediately ([Testing for COVID-19](#)) and adhere to requirements for quarantine. ([How to Quarantine](#))
- Stagger meal times and prohibit self-serve foods, including buffet and family-style meal service.
- Provide guidance and signs to maintain required physical distancing, respiratory etiquette, and hygiene.
- Post relevant information from federal, state, and local health agencies about behaviors that mitigate the spread of disease.

RESTAURANT AND FOOD SERVICES - PICK UP ONLY

GUIDANCE FOR PICK-UP SPACE	GUIDANCE REGARDING EMPLOYEES	GUIDANCE TO PROTECT CUSTOMERS
<ul style="list-style-type: none">• Limit restaurant service to walk-up/window/curbside pick up, or delivery only.• All bars must remain closed to in-person patrons (take-out permitted, e.g. beer sales/cocktail kits from a brewery).• Elevate and increase frequency of cleaning practices, including disinfection of high-touch areas.• Conduct daily disinfection and full cleaning in-between shifts in accordance with CDPHE guidance• Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions) where possible. (Additional Guidance) and encourage sick employees to use the CDPHE Symptom Support tool.• Post signage for employees and customers on good hygiene and other sanitation practices• Clearly designate pick-up waiting areas with markers for proper distancing between parties, and ensure they do not interfere with in-establishment dining - whether indoors or outside.	<ul style="list-style-type: none">• Provide guidance and encouragement on maintaining 6 foot distancing between employees.• Wear masks during customer interactions.• Wear non-latex gloves and masks during meal prep and cleaning.• Institute frequent breaks to wash hands.• Require employees to stay home when showing any symptoms or signs of sickness.• Employers are encouraged to provide high-quality masks.	<ul style="list-style-type: none">• Implement 6 foot distancing measures (i.e., marked space in check-out lines)• Provide contactless payment options whenever possible.• Make accommodations for individuals unable to adhere to mask and physical distancing requirements, such as takeout, curbside or delivery.

RESTAURANTS AND FOOD SERVICES - INDOOR AND OUTDOOR ON-PREMISE DINING

Restaurants, where patrons go for the primary purpose of dine-in service, may open up to the capacity set by their county's current dial level, so long as each table is at least 6 feet apart.

Bars may conduct take-out service.

Bars that have adapted to operate like a restaurant may continue in-person service.

Alcohol sales, including take-out alcohol orders, are dependent on county dial level:

Level Green: Alcohol sales MUST conclude by the county's local last call time.

Level Blue: Alcohol sales MUST conclude by 12 a.m.

Level Yellow: Alcohol sales MUST conclude by 11 p.m.

Level Orange: Alcohol sales MUST conclude by 10 p.m.

Level Red: On premise alcohol sales MUST conclude by 8 p.m. Sales for takeout alcohol may continue till 10 p.m.

Level Purple: No on-premise alcohol sales.

GUIDANCE FOR FOOD SERVICE SPACE	GUIDANCE REGARDING EMPLOYEES	GUIDANCE TO PROTECT CUSTOMERS
<ul style="list-style-type: none">• Restaurants are encouraged to continue curbside pick-up/delivery, including alcohol pick-up/delivery.• Outdoor dine-in service is encouraged at all dial levels except for Purple. Please work with local authorities to get authorization for expanding space to accommodate outdoor dine-in for adjacent or nonadjacent public or private spaces. The following requirements must be met:<ul style="list-style-type: none">○ Patrons in different parties must be a minimum of 6 feet apart. The spacing of tables may need to be 6 feet or more to ensure proper physical distancing between diners from different parties.○ All employees must wear masks that cover the nose and mouth, except where doing so would inhibit that individual's health.○ Disinfecting and deep-cleaning of all shared surfaces between seatings.• Indoor dine-in service can be held up to the capacity set by the county's current dial level:	<ul style="list-style-type: none">• Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions) where possible (Additional Guidance) and encourage sick employees to use the CDPHE Symptom Support tool.• Appoint one employee per shift to monitor staff and public for adherence to safety measures.• Require employees to stay home and refer to employer or state support when showing any symptoms or signs of sickness (Information about emergency sick leave pay).• Provide guidance, training, and ongoing training on maintaining 6-foot distancing between employees to the	<ul style="list-style-type: none">• Provide an option for customers to "sign in" to facilitate notifying them if an exposure occurs.• Provide contactless payment or prepayment options whenever possible.• Establish customer waiting areas, outdoors if possible, that maintain proper physical distancing from other guests.• Restrict standing and/or congregating in the bar area, entrance/exit, and any interior spaces.• Continue curbside pick up/delivery options and recommend them for vulnerable individuals.

- Level Green - Protect Our Neighbors: 50% or 500 people, not including staff, whichever is fewer.
- Level Blue - Caution: 50% or 175 people, not including staff, whichever is fewer.
- Level Yellow - Concern: 50% or 50 people or up to 100 people within their usable space calculated using the Distancing Space Calculator,, not including staff, whichever is fewer.
- Level Orange - High Risk: 25% or 50 people, not including staff, whichever is fewer.
- Level Red - Severe Risk: no indoor dine-in service. Limit to takeout, delivery, or outdoor dining service with 6 feet between parties per local zoning.
- Level Purple: Extreme Risk: no dine-in service. Limit to takeout or delivery.
- **Indoor dine-in service may only be held if the following requirements can be met:**
 - Patrons in different parties must be a minimum of 6 feet apart. The spacing of tables may need to be 6 feet or more to ensure proper physical distancing between diners from different parties.
 - All employees must wear facial coverings that cover the nose and mouth, except where doing so would inhibit that individual's health.
 - Ensure maximum ventilation by opening windows and minimizing air conditioning to the extent possible.
 - Deep clean and disinfect all shared surfaces between parties/at each turnover.
 - Keep parties together, and do not allow them to mingle with each other.
- Limit party size to **10 people or fewer.**
- Make efforts to reduce congregating inside and outside the establishment including:
 - Encouraging (preferably requiring) reservations, if feasible.
 - Waiting parties must not congregate in entrance areas and should wait in their cars or off premises until seating is available.
 - Disallowing close proximity to others outside the patron's group by:
 - Eliminating communal seating.
 - Providing a hostess seating option or staffing the

greatest extent possible in all areas of operation.

- Implement systems to minimize staff interactions, such as work flows, shift cohorting (same staff on each shift), staggering of shifts, shift changes, and breaks.
- Require employees to wear masks that cover the nose and mouth, except where doing so would inhibit that individual's health.
- Require masks for vendors, suppliers, and contract workers entering the licensed establishment, except where doing so would inhibit that individual's health.
- Require non-latex gloves, as appropriate for the task, or frequent handwashing. Encourage frequent breaks to wash hands (at least every 30 minutes) including upon arrival and departure.
- Adhere strictly to the hygienic practices listed in the [Colorado Retail Food Regulations](#) including:
 - Not working when sick.
 - Frequent handwashing.
 - Changing gloves between tasks.
 - Using a fresh pair of gloves after each handwashing.
- Consider modifying the menu to create additional space in the kitchen and promote physical distancing. Implement physical distancing where practicable.
- "All staff" meetings must follow physical distancing. Consider virtual meetings or meetings outside with appropriate distancing.

- Masks are required to be worn in all public indoor spaces unless it would inhibit the individual's health, while they are eating or drinking, or if it is not age-appropriate.
- Consider refusing service to customers who refuse to adhere to hygiene and physical distancing requirements.
- Make accommodations for individuals unable to adhere to masking and physical distancing requirements, such as takeout, curbside or delivery.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The restaurant **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

- dining area to ensure cleaning and disinfecting prior to next-customer seating.
 - Only allow bar seating options if the bar is not being used for bar service or if there is a clearly designated and separated section of the bar that is not being used for bar service.
 - Eliminating customer-service buffets.
 - Eliminating self-service stations that have multi-use utensils (such as hot dog roller tongs, bulk food bins and coffee urns) and implement touchless self-service wherever practicable. Self-service refills are not allowed.
 - Clearly mark floor and ground to delineate 6 -foot spacing for people in lines, and mark how foot traffic should move. Clearly mark closed tables not available for seating customers.
- Post clear signs notifying patrons and employees of hygiene and sanitation expectations, including not entering if they or anyone in their household is experiencing any symptoms of illness.
- Minimize objects touched by multiple patrons including:
 - Discontinue use of tablecloths, or move to single-use, or remove and replace laundered tablecloths between patrons.
- Disinfect any shared objects such as check presenters, laminated menus (if used) and POS machines thoroughly between uses.
- Increase cleaning and disinfection protocols and track with publicly posted cleaning logs including:
 - Use, as much as practicable, disposable single-use menus, menu boards, or create online menus for guests to review from their electronic device.
 - Provide single-use or single serving condiments.
 - Disinfect restrooms every hour.
 - Block off stalls and urinals with proper signage to support 6 feet between patrons. This may require reduced bathroom capacity or even only one person in a bathroom at a time.
- Provide hand sanitizer at the check-in area and throughout the venue.

- Require employees to take home all belongings, including water bottles, after every shift.
- Provide high-quality masks for employees as much as possible.

PERFORMERS/COMPETITORS

- Performances must be a min. of 25 feet distance from patrons.*
- Participants (e.g., players, performers, actors, competitors, entertainers, etc.) in events should have their symptoms checked, and participants who have been in close contact with an exposed or symptomatic person (within 6 feet for at least 10 minutes) should not participate and should self-quarantine.
- Adopt seating and spacing modifications to increase physical distance from a performer.
- Where necessary, install barriers to minimize travel of aerosolized particles from performers, or implement alternative placement of performers.
- Maximize physical spacing between performers on-stage.
- Performers should use a separate entrance/exit than patrons where possible.
- Performers are not included in capacity limits so long as they do not join the spectator/patron areas at any time. If performers join the patron spaces, they must be included in the capacity limit numbers.
- Disinfect high touch areas and equipment such as microphones, instruments, props, etc. between uses

PERSONAL RECREATION

PARKS	ORGANIZED RECREATIONAL SPORTS	PARTICIPANTS (ALL ACTIVITIES)
<ul style="list-style-type: none"> Playgrounds and outdoor sport facilities for individual (non-league) use (e.g., tennis courts, basketball courts, pickleball courts, bike tracks, motocross tracks, fields) may be open according to the county dial level: <ul style="list-style-type: none"> Level Green - Protect Our Neighbors: 50% capacity or 500 people, whichever is fewer. Level Blue - Caution: 25% capacity or 75 people, whichever is fewer. Level Yellow - Concern: 25% capacity or 50 people, whichever is fewer. Level Orange - High Risk: groups of less than 10 people. Level Red - Severe Risk: groups of less than 10 people. Level Purple - Extreme Risk: groups of less than 10 people. Dial capacity limits do not include coaches, referees, or umpires. Consider signage with the capacity limit and spacing recommendations. Post signage throughout the area 	<ul style="list-style-type: none"> Organized youth or adult recreational sports leagues are permitted with capacity limits according to the county dial level: <ul style="list-style-type: none"> Level Green - Protect Our Neighbors: 50% venue capacity or 500 people, whichever is fewer, excluding coaches and referees/umpires. Level Blue - Caution: 50 players excluding coaches and referees/umpires. Level Yellow - Concern: 25 players excluding coaches and referees/umpires. Level Orange - High Risk: 10 players, outdoors only, excluding coaches and referees/umpires, with 6 feet of distance between non-household contacts. Level Red - Severe Risk: 10 players, outdoors only, excluding coaches and referees/umpires, with 6 feet of distance between non-household contacts. Level Purple - Extreme Risk: 10 players, outdoors only, excluding coaches and referees/umpires, with 6 feet of distance between non-household contacts. Spectators are strongly discouraged for adult sports. Spectators, like parents, are permitted for youth sports, so long as members from different households maintain at least 6 feet of physical distance from each other. Maintain contact information and team rosters, and be prepared to support local public health contact tracing efforts if exposures occur. Consider participating in low or no-contact sports (like baseball, cross country, or cycling) instead of high-contact sports (like wrestling or basketball). During team practices establish drills that promote and maintain social distancing. Do not share snacks or water, except in emergency situations. Use personal equipment such as bats, mitts, rackets, etc., as much as possible Consider only holding games with other teams every 2 weeks, to minimize the number of new teams of players interacting. Regular practices with the same group are fine. Games that require extensive travel are strongly discouraged. Practice social distancing of 6 feet from other households during drop off/pick up of players. 	<ul style="list-style-type: none"> Continue to physically distance, staying at least 6 feet from members of other households . Encourage participants to stay home if sick or exhibiting COVID-19 symptoms. Consider screening participants for fever, symptoms, or exposures before or at their arrival. Encourage participants who have been in close contact with a person suspected or confirmed to have COVID-19 (generally within 6 feet for at least 10 minutes, depending on the level of exposure) to stay home and self-quarantine. Encouraged to wear a mask while recreating. Bring hand sanitizer to clean hands when soap and water is not available.

reminding individuals to stay at least 6 feet away from members of other households.

- Frequently touched surfaces that are indoors are to be cleaned and disinfected according to [CDPHE guidance](#). (e.g., park benches or playground equipment).
- Stagger visitor attendance by extending operating hours or limiting capacity whenever possible.

- Masks are encouraged where feasible (i.e. in dugouts, by coaches, by spectators)
- Competitive events such as races and endurance events are allowed as long as social distancing and limitations on group size can be maintained. This includes implementing staggered start times and making efforts to prevent gatherings at starts and finishes, so that no more than 10 people are gathered at a time.

OUTDOOR SWIMMING POOLS

- In Levels Blue, Yellow and Orange, limit the pool to 50% capacity, up to 50 people excluding staff and coaches, whichever is fewer. Capacity is limited to 25% capacity up to 10 people in Levels Red and Purple.
- Encouraged to establish a reservation system to space out visitor attendance, aid in contact tracing if exposures occur, and to allow for equitable use of the facility.
- Communal gathering spaces, such as communal locker/changing rooms should not be used.
 - If locker rooms or changing rooms must be used for safety or hygiene reasons, surfaces should be routinely cleaned every hour. Take steps such as closing off a series of lockers to promote physical distancing and reduce gatherings.
- It is strongly encouraged to limit pool activity to lap swim. If you permit open swim, make efforts to reduce in-pool interactions.
- All frequently touched surfaces and shared objects such as handrails, chairs, and tables should be disinfected every hour between use.
- Surfaces in restrooms should be routinely cleaned every hour.
- Provide physical cues or guides (for example, lane lines in the water or chairs and tables on the deck) and visual cues (for example, tape on the decks, floors, or sidewalks) and signs to ensure that staff, patrons, and swimmers stay at least 6 feet apart from members of other households, both in and out of the water.

INDOOR GYMS, INDOOR FITNESS CLASSES, RECREATION CENTERS, BOWLING ALLEYS, POOLS, INDOOR SPORT FACILITIES

- Limit indoor facilities, including gyms, recreation centers and pools, according to the county's dial level (using whichever number is fewer):
 - Level Green - Protect Our Neighbors: 50% capacity or 500 people excluding staff and coaches.
 - Level Blue - Caution: 50% capacity or 175 people excluding staff and coaches.
 - Level Yellow - Concern: 50% capacity or 50 people excluding staff and coaches.
 - Level Orange - High Risk: 25% capacity or 50 people excluding staff and coaches.
 - Level Red - Severe Risk: 10% capacity or 10 people per room excluding staff and coaches. Reservations required.
 - Level Purple - Extreme Risk: virtual or outdoors only in groups of up to 10 people.
- It is strongly encouraged to limit pool activity to lap swim. If you permit open swim, make efforts to reduce in-pool interactions between people not in the same household.
- Teams participating in organized recreation against one another, and as a result, experiencing greater contact, should still observe the dial capacity limits, excluding coaches.
- Use a reservation system or use pre-existing electronic capacity monitoring systems if feasible to space out and limit participants gathered at one time.

This includes any pool open to the public, including but not limited to municipal pools, homeowner association pools, pools at fitness centers, hot tubs, and developed hot springs.

This guidance applies to school-based sports and outdoor volunteer stewardship.

Full CDC guidance on COVID-19 pool safety can be found [here](#).

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The worksite **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

- Discourage use of any shared equipment, and ensure all equipment is cleaned and disinfected in between each use.
- Communal gathering spaces, such as communal locker/changing rooms should not be used.
 - If locker rooms or changing rooms must be used for safety or hygiene reasons, surfaces should be routinely cleaned every hour. Take steps, such as closing off a series of lockers to promote physical distancing and reduce gatherings.
- Maximize ventilation by using fans and opening windows, wherever possible.
- Provide access to hand sanitizer.
- Request staff members and patrons wear masks when they can do so safely.
- Conduct symptom and temperature checks for employees and refer symptomatic employees to the [CDPHE Symptom Support tool \(Additional Guidance\)](#).
- Employees who exhibit COVID-19 symptoms should not come to work.
- Employees who develop [COVID-19 symptoms](#) while at work should immediately notify their supervisor and be separated from others, sent home, and referred to state or company support services.
- Post signs for employees and customers outlining good hand/respiratory hygiene and safety measures being taken. Signs should be in languages customers will understand. ([CDC examples](#))

OUTDOOR RECREATION / OUTDOOR GUIDES / TOURS / OUTFITTERS

Find the capacity limits for each [county dial level](#).

Guided services, including overnight services, for fishing, hiking, biking, horseback riding, canoeing, kayaking, stand-up paddle boarding, ATV tours, hunting, snowmobiling, skiing, and climbing can occur in groups up to 10, not including staff, and must follow local policies.

River outfitters, rafting, or jeep tours can occur if parties in boats and jeeps are limited to members of up to two households only, and must follow local policies.

Developed hot springs should follow outdoor pool guidance.

OPERATORS	PARTICIPANTS
<ul style="list-style-type: none">• Maintain a distance of at least 6 feet from recreators and fellow employees, except in cases where it is unsafe to maintain that distance.• Wear face coverings as much as possible, especially during staging and disembarking operations. Where safe, wear face coverings during trip operations.• Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions) where possible and encourage sick employees to use the CDPHE Symptom Support tool.• Employees who have had close contact with a person who has COVID-19 symptoms should not come to work for 14 days after exposure and get tested.• Employees who exhibit COVID-19 symptoms must not come to work and get tested.• Employees who develop COVID-19 symptoms while at work should immediately notify their supervisor and be separated from others, sent home, and referred to state or company support services and get tested.• Keep a record of employees and participants (i.e. sign in/out) to enable contact tracing• Conduct staging operations, such as customer check-ins and end-of-trip operations, outdoors with members of different households spaced at least 6 feet apart.• Provide contactless payment or prepayment options whenever possible• Encourage reservations, and preferably require reservations, if feasible. This will aid in notification efforts in case there is an exposure to COVID-19.• Limit the number of people inside a facility to no more than 10 at one time, at a maximum of 50% occupancy, maintaining 6 feet between parties, or follow retail or restaurant guidance where applicable.• Post signs for employees and recreators outlining good hygiene and safety measures being taken. Signs should include easy-to-interpret graphics and be in languages customers will understand. (CDC examples)• Encourage hand washing. Direct customers to places where they can wash their hands with soap and water or use hand sanitizer.• Limit smaller vehicles/crafts (jeeps, rafts) to up to two household units and up to 10 people, not including	<ul style="list-style-type: none">• When possible, avoid using grocery stores, gas stations etc. in the communities you visit to prevent the spread of COVID-19 across communities. Secure food, water, gas, and any other needed supplies in your home community.• Maintain physical distance of at least 6 feet from members of other households at all times, except in cases where it is unsafe to maintain that distance.• Wear face coverings during check-in, staging, transportation to and from activity if in a shared vehicle, as well as during end-of-trip disembarking activities.• Follow company guidelines on whether/what kind of face cover to safely use during trips. Check local regulations before travel.• Bring hand sanitizers or soap

guides. (A household unit is a family or group that lives together.) Where a distance of 6 feet can be ensured between household units, more than two households per vehicle/craft are permitted.

- Disinfect all equipment used by participants, as well as equipment used commonly by other recreators in between each trip (including paddles, P.F.D.s, rafts, jeep/bus/train seats, saddles, handles/handlebars). ([CDC guidance](#))
- Vehicle windows should be kept open at all times when transporting patrons during tours. If inclement weather means extended time in an enclosed vehicle, then the tour should be rescheduled.
- Curtail ancillary services, such as food preparation, or adjust practices to limit human-to-human contact and contact with shared items.
- Competitive events such as races and endurance events are allowed as long as social distancing and limitations on group size can be maintained, including implementation of staggered start times, efforts to prevent gatherings at starts and finishes, so that no more than 10 people are gathered at a time.

and water..

- If you or anyone in your party is sick, stay home and rebook. For COVID-19, understand how long you need to quarantine (if exposed) or isolate (if ill) before you rebook.
covid19.colorado.gov/covid-19-isolation-colorado/about-covid-19/isolation-and-quarantine

LARGE-SCALE FACILITIES NEED LOCAL APPROVAL

- Scenic trains should submit plans for safe operation to all Local Public Health Agencies in the counties in which they operate for approval. If approved by all relevant counties, they may run with members of different households sitting at least 6 feet apart per car, and they should have appropriate sanitation and mitigation measures in place.
- Ski resorts may open on-mountain and lift/gondola operations to provide access to outdoor recreation (lift access for downhill mountain biking, lift sightseeing activities, climbing walls, mountain coasters, ropes courses, adventure parks, zip lines, etc.) if they develop plans for safe operation and secure approval from the Local Public Health Agencies in the counties in which they operate.
- Outdoor recreation entertainment activities at stand-alone sites for ziplines, ropes courses, outdoor artificial climbing walls, or adventure centers not affiliated with ski resorts may operate if they develop plans for safe operation and secure approval from the Local Public Health Authorities in the counties in which they operate.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG CUSTOMERS OR EMPLOYEES

- The worksite **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

OUTDOOR EVENTS

Outdoor receptions, events, fairs, rodeos, non-critical auctions, concerts, outdoor markets, or other outdoor venues not covered in other guidances where these guidelines and adherence to physical distance can be maintained. This guidance does not apply to activities covered under guidelines for restaurants, houses of worship, personal recreation, or outdoor recreation.

VENUE	VENDORS/EMPLOYEES	HOSTS/ATTENDEES
<ul style="list-style-type: none"> Limit capacity depending on venue size accounting for usable square footage* and appropriate limits in the current county dial level. Use whichever number is fewer. <ul style="list-style-type: none"> Level Green - Protect Our Neighbors: outdoor events, both seated and unseated, may be conducted at 50% capacity not to exceed 500 people per designated activity or area. Level Blue - Caution: 50% capacity up to 250 people per designated activity or area, for both seated and unseated events. Level Yellow - Concern: for unseated events, 50% capacity or up to 175 people within the usable space calculated using the Distancing Space Calculator, excluding staff, per designated activity or area. For seated events, 50% capacity or up to 175 people with 6 feet distancing between non-household contacts. Level Orange - High Risk for unseated events, 25% capacity or up to 75 people within their usable space calculated using the Distancing Space Calculator, excluding staff, per designated activity or area. For seated events, 25% capacity or up to 75 people with 6 feet distancing between non-household contacts. Level Red - Severe Risk: attend only 	<ul style="list-style-type: none"> The venue operator for an event with multiple vendors and/or performers/competitors is responsible for ensuring all vendors/performance groups are aware of and adhering to COVID-19 policies and procedures. Vendors should be familiar with the CDPHE Workplace Outbreak Guidance and apply all recommendations for prevention and mitigation that are outlined in that document to their operation. Vendors and employees must wear face coverings unless doing so would inhibit the individual's health, in which case reasonable accommodations should be pursued to maintain the safety and health of all parties. Train employees in proper use of protective equipment, and emphasize that they should refrain from face-touching. Keep documentation of this training and make it available upon request of the local public health agency. Require handwashing upon arrival, departure, and frequently throughout the day. Implement symptom monitoring protocols (including workplace temperature monitoring and symptom screening questions where possible) (Additional Guidance) and encourage sick employees to use the CDPHE symptom support tool. Employees who have been in close contact with a person suspected or confirmed to have COVID-19 (generally within 6 feet for at least 15 minutes, depending on level of exposure) should not report to work and should self-quarantine. Group employees into teams or shifts that stick 	<ul style="list-style-type: none"> Encourage attendees to stay home if sick or exhibiting COVID-19 symptoms. Consider screening attendees for fever, symptoms, or exposures before or at their arrival. Encourage attendees who have been in close contact with a person suspected or confirmed to have COVID-19 (generally within 6 feet for at least 15 minutes, depending on the level of exposure) to stay home and self-quarantine. Encourage frequent handwashing. Attendees should refrain from mixing and mingling with others not in their household during events during events as much as possible. Attendees should maintain at least 6 feet of physical distance from others as much as possible. Attendees are highly recommended to wear face coverings unless doing so would inhibit the individual's health, in which case reasonable accommodations should be pursued to maintain the safety and health of all parties. Populations at higher risk for severe COVID-19 should consider additional protections or staying home during this time per CDPHE guidance. Encourage remote participation whenever possible.

with members of your own household. For unseated events, 25% capacity or up to 75 people within their usable space calculated using the [Distancing Space Calculator](#), excluding staff, per designated activity or area. For seated events, 25% capacity or up to 75 people with 6 feet distancing between parties.

- Level Purple - Extreme Risk: closed.
- Calculate capacity for square footage of usable space using the [Social Distancing Space Calculator](#).
- An event is considered “seated” if the attendees have minimal movement, such as purchasing concessions or using the restroom facilities.
 - If an event involves both a seated and unseated portion, it must calculate capacity for the unseated portion using the [Social Distancing Space Calculator](#).
- Collect contact information for guests or attendees through ticket sales, reservations, RSVPs, or having sign-in sheets. Include times of arrival and departure, to help with potential exposure notification.
- Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel.
- Ensure 6 feet or more distance between all employees, customers, contractors, and visitors.
- Create a queue at entrances and exits that ensures a minimum of 6 feet of physical distance between individuals and pace entry and exit to prevent congestion.
- Establish single-direction traffic flow in and out of venue and seating areas. Consider separate entrances and exits.

together to limit mixing between different teams or shifts.

- Provide contactless payment methods.
- Do not allow multiple people to handle objects unless you can disinfect objects between each person.
- Extend setup timelines to allow vendors more time to set up and not overlap.

PERFORMERS/COMPETITORS

- Performances or competitions must be a minimum of 25 feet distance from patrons**.
- Participants (e.g., players, performers, actors, competitors, entertainers, etc.) in events must be checked for fevers, symptoms, and exposures before or at arrival.
- Participants (e.g., players, performers, actors) who have been in close contact with a person suspected or confirmed to have COVID-19 should not participate and should self-quarantine.
- Where necessary, implement alternative placement of performers. If spacing is not possible, in some situations it may be suitable to install barriers to minimize transmission of aerosolized particles.
- Maximize physical spacing between performers on-stage.
- Encourage all employees to wear face coverings, unless doing so would inhibit the individual’s health.
- Performers should use a separate entrance/exit than patrons where possible.
- Performers are not included in capacity limits as long as they do not join the spectator/patron areas at any time and remain at least 25 feet from attendees. If performers join the patron spaces, they must be included in the capacity limit numbers.
- Disinfect high touch areas and equipment such

- Consider staggered guest arrival and departure times to avoid congregating at entrances and exits.
- Give reminders to observe at least 6 feet social distance before, during, and after events.
- Provide signage, announcements, and other reminders that face coverings are highly recommended to reduce COVID transmission.
- Seating at events must be appropriately spaced, to reduce mingling and reinforce the necessary distance between individuals in different households.
- Enhance cleaning and sanitization of common touch points (doors, stairwell handles, light switches, elevator switches, etc.).
- Catering services or food services should be seated-only. Food and drink services must follow the same [guidelines as restaurants and bars.](#)
- Install hand sanitizing stations at entrances and in high-traffic areas.
- Consider shorter event duration times or limited admission windows to reduce the need for patrons to use restroom facilities, which can be a source of transmission.
- Install plexiglass barriers where appropriate.
- Remove games or activities that require or encourage mingling, congregating and sharing materials. This includes things like board or recreational games, bounce houses, ball pits, shared dance floors (not for performances), and amusement booths and rides at fairs.
- Booths or vendors at events must:
 - Allow spacing for vendor load-in and loadout such that vendors and staff can maintain a distance of at least 6 feet from each other as much as possible.
 - Add a minimum of 6 feet in between booths.

as microphones, instruments, props, etc. between uses.

- Create a single line of booths instead of double rows. If this is not possible, create at least a 16 feet thoroughfare between the two sides allowing for a single file, one-way path down the middle.
- Require vendors to have market booth layouts that promote social distancing. Provide them with the space to do this.
- Create one-way traffic flow through the booths to prevent crowding or mingling.
- Use ropes, cones, or tape to define the entrance, exit and flow.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG PATRONS OR EMPLOYEES

- The venue operators **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#).

*Venues that have multiple designated activities/events that are physically separated, such as a fair with activities taking place in separate buildings or arenas, may have the maximum capacity in each setting, and must implement additional prevention measures, such as one-way traffic, as attendees move from one activity or event to the next. The designated activities must occur a minimum of 50 feet from each other, maintain separate entrances and exits, and must minimize the use of shared facilities like restrooms.

**Research and the CDC suggest that activities like singing may project respiratory droplets in greater quantity and over greater distance, increasing the risk of COVID-19 transmission, particularly with prolonged exposure.

INDOOR EVENTS

Receptions, events, concerts, indoor markets, indoor malls, non-critical auctions, theaters, trade shows, or other indoor venues not covered in other guidance documents where these guidelines and adherence to physical distance can be maintained.

Events that can fully follow the restaurant guidelines for the entire event may operate as a restaurant and follow those guidelines and capacity restrictions. This means that parties are seated, there are no shared activities, and any performers are at least 25 feet from patrons. Please see the restaurant guidance for more details.

VENUE	VENDORS/EMPLOYEES	HOSTS/ATTENDEES
<ul style="list-style-type: none">Limit capacity depending on venue size accounting for usable square footage* and appropriate limits in the current county dial level.<ul style="list-style-type: none">Level Green - Protect Our Neighbors: indoor events, both seated and unseated, may be conducted at 50% of the posted occupancy limit not to exceed 500 people per room.Level Blue - Caution: 50% of posted occupancy limit not to exceed 175 people per room for both seated and unseated events.Level Yellow - Concern: for unseated events, 50% of posted occupancy limit, 50 people without calculator or up to 100 people within usable space calculated using the Distancing Space Calculator. For seated events, 50% capacity or 100 people is the limit so long as there is 6 feet of distancing between parties.Level Orange: High Risk: for unseated events, 25% of posted occupancy limit or up to 50 people using the Distancing Space Calculator. - **Level Red - Severe Risk:** closed with one exception: Under Level Red only, institutions including museums, aquariums, or zoos may open indoors in order to perform educational functions, up to 25% or 25 people per room, whichever is fewer. These institutions must follow the same capacity restrictions as other indoor events in all other dial levels.
 - **Level Purple - Extreme Risk:** closed.
- An event is considered “seated” if the attendees have minimal movement, such as purchasing concessions or using the restroom facilities.
 - If an event involves both a seated and unseated portion, it must calculate capacity for the unseated portion using the [Social Distancing Space Calculator](#).
- Collect contact information of guests or attendees through tactics like taking reservations, requiring RSVPs, or having sign-in sheets, and times of arrival and departure to help with potential exposure notification whenever possible.
- Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel.
- Ensure 6 feet or more distancing between all employees, customers, contractors, and visitors.
- Must create a queue at entrances that ensures a minimum of 6 feet of physical distancing between individuals and pace entry to prevent congestion .
- Operate on a one-in-one-out basis when at capacity.
- Give reminders to observe 6 feet physical distancing before, during, and after events.
- Post signage with easy to interpret graphics in commonly used languages reminding everyone to maintain 6 feet of distance, wear masks, wash

PERFORMERS/COMPETITORS

- Performances must be a min. of 25 feet distance from patrons.*
- Performers must wear face coverings in all public indoor spaces. ([Additional Guidance](#))
- Participants (e.g., players, performers, actors, competitors, entertainers, etc.) in events should have their symptoms checked, and participants who have been in close contact with an exposed or symptomatic person (within 6 feet for at least 10 minutes) should not participate and should self-quarantine.
- Adopt seating and spacing modifications to increase physical distance from a performer.
- Where necessary, install barriers to minimize travel of aerosolized particles from performers, or implement alternative placement of performers.
- Maximize physical spacing between performers on-stage.
- Performers should use a separate entrance/exit than patrons where possible.
- Performers are not included in capacity limits so long as they do not join the spectator/patron areas at any time. If performers join the patron spaces, they must be included in the capacity limit numbers.
- Disinfect high-touch areas and equipment such as: microphones, instruments, props, etc. between uses.

hands, etc.

- Establish single-direction traffic flow in and out of venue and seating areas. Consider separate entrances and exits.
- If the event is catered, do not allow for self-service stations or buffets.
- Enhance cleaning and disinfection of common touch points (doors, stairwell handles, light switch, elevator switch, etc.). ([CDC cleaning guidance](#))
- Ensure ventilation at the venue is in line with or exceeds OSHA guidance.
- Install touchless hand sanitizing stations at entrances and in high-traffic areas.
- Deploy plexiglass barriers where appropriate.
- Limit, wherever possible, the sharing of tools, equipment, or other shared resources (not involved in games or activities).
- Remove games or activities that require or encourage standing around, congregating, or shared materials. This includes things like board or recreational games, bouncy houses, ball pits, shared dance floors (not for performances), or amusement booths or rides at fairs.
- Booths or vendors at events must:
 - Allow spacing for vendor load-in and loadout such that vendors and staff can maintain a distance of at least 6 feet from each other as much as possible.
 - Add a minimum of 6 feet in between booths.
 - Create a single line of booths instead of double rows. If this is not possible, create at least a 16-foot thoroughfare between the two sides allowing for a single file, one-way path down the middle.
 - Require vendors to have market booth layouts that promote social distancing.

Provide them with the space to do this.

- Create one-way traffic flow through the booths to prevent crowding or mingling.
- Use ropes, cones or tape to define the entrance, exit and flow.

●
*Research and the CDC suggest that activities like singing may project respiratory droplets in greater quantity and over greater distance, increasing the risk of COVID-19 transmission, particularly with prolonged exposure.

IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG PATRONS OR EMPLOYEES

- The event organizers **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-healthcare facilities can be found [here](#)

FAQ: Is it OK to have arcade games at my event or venue?

- Yes, arcade games are permitted at both indoor and outdoor events when following the best practices described in the indoor and outdoor events guidance.
- Indoor arcades themselves may follow the same capacity restrictions as [indoor unseated events](#) at each given dial level.
- Arcades with food service should follow restaurant guidance for designated dining areas.
 - Dining areas and activities should be separated from gaming areas as much as possible.
- Disinfect high-touch areas and equipment such as: gaming machines and equipment, microphones, instruments, props, etc. between uses.
- Limit gaming group size to no more than 4 people and maintain at least 6 feet distancing between groups.
- Lower or turn off volume on games to reduce the need to speak loudly as forced exhalation increases the risk of transmission.

FAQ: Are casinos allowed to open under the dial framework?

- Casinos may operate according to the dial level for which the county in which they operate is approved.
- Table games are not authorized to operate under Levels Blue, Yellow, Orange, Red or Purple.
- Dial level restrictions for casinos are as follows:
 - **Level Blue: Caution**

- Casinos may operate their slot machines using the same capacity requirements as Indoor Events, 50% of the posted occupancy limit not to exceed 175 people per room, whichever is less, excluding staff.
- Table games are not authorized to operate.
- **Level Yellow: Concern**
 - Casinos may operate their slot machines using the same capacity requirements as Indoor Events, 50% of the posted occupancy limit not to exceed 150 people, whichever is less, per room excluding staff within their usable space.
 - Extra large establishments may expand to no more than 100 patrons indoors per room, excluding staff, within their usable space calculated using the Distancing Space Calculator.
 - If the event is a seated event, the usable space may be calculated using 6 feet distancing between non-household contacts instead of using the calculator.
 - Table games are not authorized.
- **Level Orange: High Risk**
 - Casinos may operate at the same capacity requirements as Indoor Events, 25% of the posted occupancy limit not to exceed 50 people excluding staff, whichever is less, within their usable space calculated using the Distancing Space Calculator per room.
 - If the event is a seated event, the usable space may be calculated using 6 feet distancing between non-household contacts instead of using the calculator.
 - Table games are not authorized.
- **Level Red: Severe Risk and Level Purple: Extreme Risk**
 - Casinos are closed for in-person work and services under this Order but may continue to carry out Minimum Basic Operations.

FAQ: What kind of businesses can open under the limited educational institution exception in Level Red?

- Under Level Red, institutions including museums, aquariums, or zoos may open indoors in order to perform educational functions, up to 25% or 25 people per room, whichever is fewer. Any other classes or educational functions that take place in a different setting (i.e. schools, retail stores, or studios) must follow their own respective guidelines.

RESIDENTIAL CAMPS

All overnight camps, including exempt overnight camps operating for less than 72 hours, must operate with restrictions and strong precautionary measures, as specified in the guidance below.

GUIDANCE FOR CAMP OPERATORS

Capacity

- Camps may be conducted at group capacities according to [dial level](#).
- If the indoor space is large enough to allow for social distancing (6 feet between each camper and minimum of 36 square feet per camper), more than one stable group could be in an indoor space at the same time as long as there is adequate space between groups and safe egress is not compromised.

Prior to camp

- Establish a plan that includes:
 - Capacity and registration of campers that accommodate required physical distancing (6 feet) and maximum group size. Physical distancing and group-size requirements apply to all camp activities, including transportation, eating, sleeping, and recreational activities.
 - A determination if the indoor space is large enough to allow for physical distancing (6 feet between each camper and minimum of 36 square feet per camper). If the space is large enough, more than one established group could be in an indoor space at the same time as long as there is adequate space between groups and safe egress is not compromised. Capacity for square footage of usable space should be calculated using the [Social Distancing Space Calculator](#).
 - Clear rules that allow for established groups of campers based on dial level capacities. The groups must not mix with other groups during any part of the day for the duration of camp.
 - Clear rules for cohorts to remain with their group and not mix with other groups during structured time or free time, including pick up and drop off.
 - The availability of substitute staff if staff or volunteers become ill or are exposed.
 - The establishment of protocols for responding and reporting cases to health care staff, local public health authorities, and CDPHE.
 - Protocols for coordinating access to testing, in conjunction with the local public health agency, if any campers or staff become symptomatic. Testing sites can be found [here](#).

While camp is in session

-
- Campers must remain with their group and not mix with other groups during structured time or free time, including pick up and drop off.
- Limit exposure to the general public. When there is a possibility of exposure, campers and staff should strive for physical distancing or wear masks/face coverings.
- Prohibit family and buffet style service such as salad bars; self-service, counter food service; and other configurations that require diners to use shared utensils. Prioritize the use of “grab-n-go” options, a food handler plated service line, and pre-plated meals. Stagger meal times and keep groups physically distancing during meals. Clean and disinfect surfaces of dining areas between groups.
- Provide guidance and signs throughout camp to maintain required physical distancing, respiratory etiquette, and hygiene.
- Require nurses or health care providers to use CDC-specified [Standard and Transmission-Based Precautions](#) when caring for sick people, and use CDC guidance when caring for sick people.
- Ensure cleaning and disinfecting of commonly touched surfaces, equipment, and vehicles, especially in areas used for the temporary isolation of ill or exposed staff, volunteers, and campers.

- Written verification that parents were notified of their responsibility to follow the advice of the local public agency if their child needs to leave camp for a COVID-19 related illness, including complying with relevant travel restrictions.
- Communication to families of enrolled campers that the camp is accepting campers from various geographic regions, if applicable.
- Protocols to monitor and enforce physical distancing and healthy hygiene behaviors throughout the day and night.
- Consider including in the written plan: Food services practices and cleaning/disinfection protocols.
- Ensure space and resources are available to isolate ill staff and campers (e.g., cots, bedding, restrooms, and supervision).
- Provide adequate personal protective equipment (PPE) for staff who supervise and care for ill campers, staff, and volunteers.
- If needed, increase the number of health care workers to accommodate COVID-19 requirements, and ensure that health care workers are knowledgeable about current executive and public health orders in Colorado.
- Strengthen requirements for the camp's health care workers. It may be necessary to require a registered nurse, licensed physician assistant, or physician onsite at all camps.
- Train camp staff on current executive and public health orders in Colorado.
- Train camp health care staff on prevention, transmission, and care of COVID-19 illness.
- Have a plan in place if camp closure is needed.
- Require masks/face coverings or physical distancing during transportation to and from the camp.
- Ensure sufficient hand-washing/hand-sanitizing locations, and make sure supplies are available.
- Ensure adequate cleaning and disinfecting supplies.
- Update agreement with the local hospital to ensure the hospital will have the ability to accommodate additional patients if needed.
- Any travel trip or wilderness excursion camp must seek CDPHE approval and must adhere to this guidance.
- Provide generous and flexible cancellation policies so that if campers or family start experiencing symptoms, they can cancel.

- Whenever possible, limit activities that are not conducive to the required 6 feet of physical distancing or could pose a safety hazard when campers and staff are physical distancing.
- Keep a record of employees and campers (i.e. sign in/out) to enable contact tracing
- Non-essential visitors should not be allowed to visit camp/programs.
- Prohibit any external community organization from sharing the camp facilities during the overnight camp session.

IF THERE IS A CONFIRMED OR SUSPECTED CASE OF COVID-19 AMONG CAMPERS OR CAMP STAFF OR VOLUNTEERS

- The camp **must** notify and cooperate with their local public health agency on next steps.
- Local public health agency contacts can be found [here](#).
- Outbreak guidance for non-health care facilities can be found [here](#).
- Monitor other campers and staff who were part of the ill camper's established group.
- Recommend immediate COVID-19 [testing](#) for anyone with [symptoms](#).
- If sent home, require the staff member or camper to adhere to [isolation](#) and exclusion requirements.

For additional COVID-related guidance or questions not addressed in this document, check with the local health department and follow any requirements for that jurisdiction.

GUIDANCE REGARDING EMPLOYEES

- Screen staff and volunteers for symptoms and possible exposure to COVID-19 upon arrival and daily to ensure they are symptom-free before they are cleared to work.

GUIDANCE REGARDING CAMPERS

- Screen campers for symptoms and possible exposure at drop off, pick up, and daily to ensure they are symptom-free before they are deemed able to attend.

([Additional Guidance](#)). Encourage sick employees to seek testing and use the [Colorado COVID Symptom](#) Support tool.

- Require staff or volunteers with symptoms of COVID-19 to adhere to [isolation](#) and quarantine requirements.
- Establish protocols for the immediate isolation of symptomatic individuals, and to alert health care staff when staff, volunteers, or campers exhibit symptoms.
- Determine if any staff or volunteers are at a higher risk for COVID-19 and consider whether job duties that don't involve interaction with others are advisable, and they should seek written approval from their physician before being permitted at camp.
- Staff and volunteers, to the extent possible, should remain with the same group of campers and maintain physical distancing of at least 6 feet whenever possible, including during meals and recreation.
- Require hand-washing upon arrival, before eating, and at regular intervals throughout the day.
- Require masks/ face coverings whenever possible, especially in situations where physical distancing cannot be maintained.
- Consider alternating sleeping arrangements head to toe so that there is at least 6 feet between each sleeping person's head.

- Consider a pre-camp form to monitor temperatures and health for 7-14 days before arrival.
- Immediately isolate campers with symptoms of COVID-19 and have the appropriate health care staff monitor symptoms.
- Provide frequent communications with all families of enrolled campers related to the occurrences of COVID-19 and the camp, the camp's response, and requirements of the public health order.
- Require frequent frequent hand-washing throughout the day.
- Require hand-washing after using the restroom and before and after meals.
- Use hand sanitizer when hand-washing is not available.
- Encourage campers and staff to avoid placing toothbrushes and toiletries directly on counter surfaces
- Alternate sleeping arrangements head to toe so that there is at least 6 feet between each sleeping person's head.
- Camp should create a staggered drop-off time to ensure proper screening of children.
- Camps should distribute their COVID-19 plans to families before camp.
- Recommend 14-day quarantine for campers after returning home from camp if they had any exposure to someone with suspected or confirmed COVID-19.

SHORT TERM RENTALS

RENTAL SPACE	OWNERS/MANAGERS	GUESTS
<ul style="list-style-type: none"> • Provide hand sanitizer and/or soap and water that is easily accessible to guests upon arrival and during their stay. • Provide cleaning and/or disinfecting products for guests to use, along with instructions. • In alignment with the CDC Guidelines, wait 24 hours before entering the property for cleaning. If 24 hours is not feasible, wait as long as possible. • Remove shared soft objects that are difficult to regularly clean if possible (i.e. extra throw blankets, decorative pillows, or other soft objects). • Post signage for employees and guests on good hygiene and other sanitation practices <p><i>Owners are responsible for ensuring that the property is properly cleaned and sanitized between guests. Consider the following:</i></p> <ul style="list-style-type: none"> • Create a thorough cleaning checklist for each property to help ensure completion and keep records. • If guests clean the property themselves, implement additional disinfection afterward. • Follow, or if contracting with a cleaning service ensure that they are following, CDC Disinfecting Guidelines. • Wear/provide appropriate personal protective equipment (PPE) for people who are cleaning. • Prevent cross-contamination by using specific equipment in specific areas (bedroom, bathroom, kitchen). • Ventilate the property during and after cleaning. • All shared linens, blankets, cloth napkins, and other fabric items must be washed between guests. • When possible, perform temperature checks and monitor symptoms in employees, logging all results. Refer symptomatic employees to the CDPHE 	<ul style="list-style-type: none"> • Maintain at least 6 feet of distance, and wear a face covering during any interactions with guests, staff, local community (i.e. check in/out). • Consider minimizing these interactions by implementing no-contact check-in procedures. • Avoid scheduling back-to-back stays (schedule at least 24 hours between guests) to ensure time for proper cleaning and disinfecting. • Provide generous and flexible cancellation policies so that if guests start experiencing symptoms, they can cancel. • Ensure guests are not present at the time of any maintenance or cleaning. • Routinely check data and guidance in the counties and communities where you own property. Defer to any local guidelines restricting or prohibiting travel for out-of-state or out-of-community guests, and promptly adjust reservations accordingly. • Clearly communicate with guests regarding your cleaning and disinfecting steps. • Notify guests that it is standard in Colorado to wear cloth masks in public -- consider providing clean masks for guests. • Collect all guests' contact information and be prepared to support local public health contact tracing efforts if exposures occur. 	<ul style="list-style-type: none"> • Guests are encouraged to take their shoes off when entering the property. • Guests should wash their hands frequently with soap and water and/or use hand sanitizer. • Guests should wear cloth face coverings in public throughout Colorado. It may be required in some communities. • Guests should maintain physical distancing of at least 6 feet from people not in their group/ household while in Colorado. • Guests must cancel their stay if they are sick or have been in close contact with someone who is sick with COVID-19 symptoms in the 14 days before their stay. <p>IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG GUESTS OR EMPLOYEES</p> <ul style="list-style-type: none"> • The owner/manager must notify and cooperate with their local public health agency on next steps. • Local public health agency contacts can be found here. • Outbreak guidance for non-healthcare facilities can be found here.

Symptom Support tool (Additional Guidance).
Encourage sick employees to stay home.

GROCERY STORES

Grocery stores can help protect both employees and their customers from COVID-19. Personal and environmental cleaning practices and physical distancing are critically important. Recommended practices for grocery stores are listed below.

WORKSITES	EMPLOYEES	CUSTOMERS
<p>Steps for everyone</p> <ul style="list-style-type: none">• Follow guidance for all businesses.• Maintain adequate spacing (6 feet) between customers and staff inside/outside the store.<ul style="list-style-type: none">◦ In areas of high-volume traffic, consider spacing tools, such as tape markers on the floor, to keep customers and employees adequately spaced.◦ Consider physical barriers such as sign stands, ropes and sneeze guards.◦ Consider assigning staff to help monitor and enforce social distancing.• Prominently display signs that communicate with customers/staff the steps taken to minimize risk. Including physical distancing, good hygiene and sanitation practices.• Place alcohol-based (at least 60% alcohol) hand sanitizers for employees and customers at convenient and accessible locations, such as near entrances and self-check-out screens.• Make sanitizing wipes easily accessible to customers, or have an employee sanitize between each customer use.• Appoint a designated sanitation worker at all times to continuously clean and sanitize commonly touched surfaces, including shopping carts, basket handles, door handles, counter tops, and cash machine keypads. (Additional Guidance)• Require employees to stay at home when showing any symptoms or signs of sickness.• Establish one-way traffic flow through aisles.	<ul style="list-style-type: none">• Follow guidance for all businesses.• Maintain adequate spacing (6 feet) between customers and staff inside/ outside the store.• Use gloves as appropriate by industry standards.• Wear facial coverings as required under current health orders that cover the nose and mouth, except where doing so would inhibit the wearer's health.• Take frequent breaks to wash hands.• Stay home when showing any symptoms or signs of sickness.• Appoint one employee per shift to monitor staff and public for adherence to safety measures• Employees who are sick should notify their supervisor and stay home. Those who exhibit fever, dry cough, shortness of breath should follow the directions for self-isolation [covid19.colorado.gov/how-to-isolate] and seek medical attention, if needed.• Employees who have been in close contact with someone who has tested positive for COVID-19 should not be expected to report to work. They should stay home, self-quarantine and monitor themselves for symptoms. [covid19.colorado.gov/how-to-quarantine]• Employees who were sick may be eligible to return to work if they meet the following criteria*:<ul style="list-style-type: none">◦ At least 3 days (72 hours) have passed since fever has resolved without the use of fever-reducing medications and◦ Improvement in respiratory symptoms	<ul style="list-style-type: none">• Follow guidance for all businesses.• Wear masks when you are in public.• Maintain adequate spacing (6 feet) between yourself and other customers or staff inside and outside of the store.• If you are at higher risk, refrain from shopping outside of dedicated hours set aside for those who are more at-risk.• Sanitize hands, surfaces, and touched objects. <p>IF THERE IS A CONFIRMED CASE OF COVID-19 AMONG EMPLOYEES OR CUSTOMERS</p> <ul style="list-style-type: none">• The worksite must notify and cooperate with their local public health agency on next steps.• Local public health agency contacts can be found here.• Outbreak guidance for non-healthcare facilities can be found here

Steps for employees

- Limit entry to 50% of posted capacity limits at all dial levels in accordance with guidelines for critical retail. Stores in counties at Level Red or Level Purple should work to prioritize curbside pick-up and delivery over in-person service.
- Provide any necessary masks and gloves.
- Conduct [daily temperature checks and monitor symptoms](#) in employees, logging all results. Refer symptomatic employees to the [CDPHE Symptom Tracker](#). Maintain employee confidentiality at all times.
- Stagger/alter shifts to reduce the number of employees in the store at once.
- Limit exposure for employees at higher-risk. Consider assigning these employees to shifts that limit exposure to the public.

Steps for customers

- Provide dedicated in-store visit hours for high-risk populations.
- Encourage order-ahead, curb-side, online shopping, and delivery options.
- Prohibit self-serve foods, including hot bars, cold bars and buffets.
- Prohibit product sampling.

- (e.g., cough, shortness of breath); and,
 - At least 7-10 days have passed since symptoms first appeared.
