

COVID-19 Atlanta Reopening Phase 4

The City of Atlanta will continue to update our COVID-19 Reopening Guidelines and Metrics. The metrics are now classified as gatekeeping and monitored. Gatekeeping metrics are used to determine our advancement through the reopening phases. Monitored metrics are observed to provide general updates about the pandemic.

GUIDELINES

ATL STRONG

INDIVIDUALS

- ✓ Limited trips outside
- ✓ Frequent hand washing
- ✓ Social distancing
- ✓ ***Wearing a face mask in indoor City facilities is a mandate***

BUSINESSES/ NON-PROFITS

- ✓ Increased occupancy in food and retail establishments, with social distancing and other protective measures
- ✓ ***Begin phasing in non-essential workers to return to work with safety precautions, including social distancing, temperature checks, and frequent cleaning as appropriate***
- ✓ ***Medium gatherings with social distancing***
- ✓ Frequent cleaning of public and high touch areas

CITY GOVERNMENT

- ✓ ***Some essential and non-essential City facilities and programs may begin to open with safety precautions***
- ✓ Workers may begin to return to work, with appropriate safety precautions and operational changes
- ✓ City continues to accept special event applications subject to COVID safety requirements
- ✓ Continue communication with local and State authorities to monitor public health metrics

GATEKEEPING METRICS

TRANSITION TO PHASE 5 (Blue Zone) after sustaining Blue Zone gatekeeping targets over 10 days (i.e. COVID cases, hospitalizations, and positive test results).

BLUE ZONE GATEKEEPING TARGETS INCLUDE THE FOLLOWING:

- ✓ **New COVID cases:** Cases average below 20
- ✓ **COVID Hospitalizations:** Hospitalizations average result below 50
- ✓ **Percent of Positive COVID Tests:** Diagnostic test positivity result below 1%

MONITORED METRICS

Hospital capacity indicators are monitored daily

- ✓ **Hospital Bed Availability:**
Pre-COVID Average 22.5%
- ✓ **Hospital CCU Bed Availability:**
Pre-COVID Average 25%

Testing capacity indicators are monitored daily

- ✓ **County Standards:**
> 2857 tests per day

Vaccination indicators are monitored daily

- ✓ Actual Number and Percentage
of Population Fully Vaccinated
