# ND SMART RESTART Protocols

---

## Businesses strongly encouraged to follow ND Smart Restart Guidelines

Gov. Doug Burgum announced the statewide risk level is being adjusted from moderate/yellow risk to low/green risk, effective 8 a.m. Friday, Jan. 29.

A low/green risk level increases the recommended occupancy limit for bars, restaurants and other food service establishments from 65 percent of licensed facility capacity up to 200 patrons, to 80 percent of licensed facility capacity up to 300 patrons, with social distancing. Face coverings should be strongly recommended or required. Banquet, ballrooms and event venues are recommended at 75 percent of room capacity, not to exceed the ND Smart Restart capacity limits.

[Click here for current Executive Orders](#)

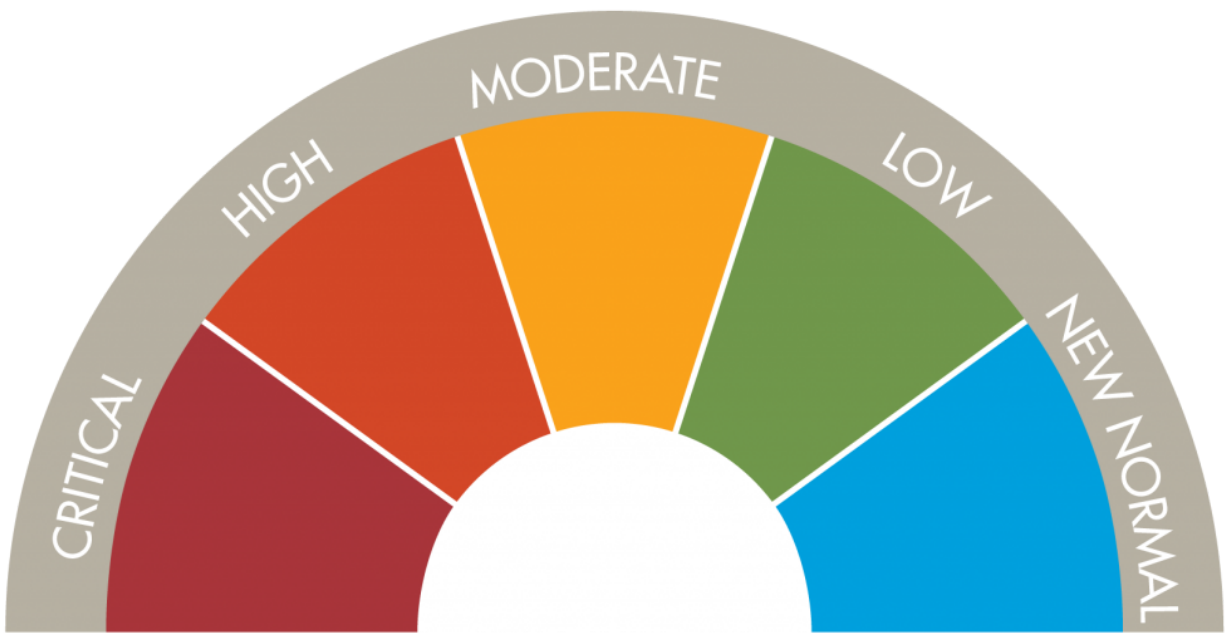

We encourage North Dakotans to embrace this ND Smart Restart plan as a roadmap to a better, safer and healthier tomorrow for employers, employees and customers alike.

This applies not only to those businesses affected by executive orders, but to all businesses as we enter this new normal.
