COVID-19 Testing

Williamson County through a partnership with Family Emergency Rooms is providing testing for COVID-19. For more information on a PCR (nasal swab test) and the Antibody Test, or to schedule a test appointment, please go to the following link: [FHS Booking](#). The new scheduling process will allow you to select the time and testing location that best fits your needs, with no need to wait for a call back from a scheduler.

Testing is available for all. COVID-19 tests are currently covered by most insurance companies. Tests for Williamson County residents without insurance will be paid for by Williamson County.

The Williamson County and Cities Health District also has information on COVID-19 testing on their website [here](#).

The Texas Division of Emergency Management offers COVID-19 testing in Pflugerville on Monday, Wednesday and Saturday from 9 a.m. to 6 p.m. See details [here](#).

El condado de Williamson a través de una asociación con Family Emergency Rooms está proporcionando pruebas para COVID-19. Para obtener más información sobre una PCR (prueba de frotis nasal) y la Prueba de anticuerpos, o para programar una cita de prueba, vaya al siguiente enlace: [FHS Reserva](#). El nuevo proceso de programación le permitirá seleccionar la hora y el lugar de prueba que mejor se adapte a sus necesidades, sin necesidad de esperar una llamada de un planificador.

Las pruebas están disponibles para todos. Las pruebas COVID-19 están actualmente cubiertas por la mayoría de las compañías de seguros. Las pruebas para los residentes del condado de Williamson sin seguro serán pagadas por el condado de Williamson.

Novel Coronavirus (COVID-19) Information

Coronavirus (COVID-19) is a respiratory illness that is spreading from person to person in parts of the United States. The risk of infection with COVID-19 is higher for people who are close contacts of someone known to have COVID-19, for example healthcare workers, or household members. Other people at higher risk for infection are those who live in or have recently been in an area with an ongoing spread of COVID-19.

Williamson County & Cities Health District is closely monitoring the rapidly evolving situation in coordination with the **Texas Department of State Health Services**, the **Centers for Disease Control and Prevention** (CDC), and local and regional public health and healthcare agencies.

If you or someone you know is feeling overwhelmed by the COVID-19 pandemic, help is available. Call the toll-free Texas Health and Human Services COVID-19 **Mental Health Support Line at 833-986-1919** to speak with a mental health professional 24/7.

Williamson County Judge Gravell Opts-In to Open Bars Per Governor Abbott's Order

12 October 2020 Author: [Connie Odom](#) Number of views: 1954 0 Comments

Starting Wednesday, October 14, Williamson County bars and similar establishments may offer on-premises services at up to 50 percent of the total listed occupancy of the establishment while observing Governor Abbott's minimum standard health protocols. View the minimum standard health protocols for bars or similar establishments [here](#).

On October 7, Governor Greg Abbott issued an Executive Order GA-32 to open bars and similar establishments in qualifying counties in Texas if the area does not have high hospitalizations and if the county judge signs an opt-in form to allow it. Williamson County Judge Bill Gravell signed and submitted his opt-in form to the Texas Alcoholic Beverage Commissioner on October 8, 2020, so that more Williamson County businesses can be open to serve the public.

"Williamson County residents have shown that they can follow guidelines established to stop the spread of COVID-19 and get back to business. Not business as usual, but business that is conducted following the protocols determined by health professionals to keep everyone safe. We need all of our businesses to be open and operate safely so that everyone has the opportunity to work and support their families," said County Judge Bill Gravell.

Some of the health protocols include that patrons at bars or similar establishments may eat or drink only while seated, except that in an establishment that holds a permit from TABC as a brewer, distiller/rectifier, or winery, customers may sample beverages while standing so long as they are in a group of six people or fewer and there is at least six feet of social distancing or engineering controls, such as partitions, between groups.

Where applicable, this 50 percent occupancy limit applies only indoors; the limit does not apply to outdoor areas, events, or establishments, although social distancing and other protocols must be followed.

In providing or obtaining services, every person should use good-faith efforts and available resources to follow the minimum standard health protocols recommended by the Department of State Health Services (DSHS) found [here https://www.dshs.texas.gov/coronavirus/](https://www.dshs.texas.gov/coronavirus/). Nothing in the Governor's Executive Order GA-32 or the DSHS minimum standards precludes requiring a customer to follow additional hygiene measures when obtaining services.
