*****Regardless of trigger being met, these activities (overnight sleepaway camps) cannot begin any sooner than June 1, 2021

Addendum to Blueprint Activity & Business Tiers Chart – Tested and Fully Vaccinated Individuals and Sections

FULLY VACCINATED VISITORS AND SPECTATORS

• Fully vaccinated persons from out of state may visit or attend activities or events that are restricted to in-state visitors. Fully vaccinated persons should consult the current CDPH Travel Advisory and adhere to any applicable recommendations.

FULLY VACCINATED WORKERS

• Where capacity limits exist, fully vaccinated workers do not count toward any occupancy capacity limit.

VENUES WITH FULL TESTING/VACCINATION – CAPACITY BONUS

• Venues that have fully vaccinated or tested negative attendees only may increase their capacity as follows, unless a different capacity limit is specified for that sector in the grid. Venues may not use the capacity bonus below if any section of the venue includes attendees that do not show proof of negative test or show proof of full vaccination.

Tier 1	Tier 2	Tier 3	Tier 4
Widespread	Substantial	Moderate	Minimal
Existing capacity limits apply	Existing capacity limits apply	Outdoor: Existing capacity limits apply Indoor: Venues may increase capacity by an additional 50%, up to a maximum of 50% of total venue capacity.	Outdoor: Existing capacity limits apply Indoor: Venues may increase capacity by an additional 50%, up to a maximum of 75% of total venue.

VACCINATED-ONLY SECTIONS – DISTANCING AND OTHER REQUIREMENTS

- Fully Vaccinated-only sections must be separate, distinct, and clearly marked from any other section of the venue that is set aside for tested attendees.
- Individuals in the Fully Vaccinated-only sections do not have to be physically distanced. Face coverings are required.
- Fully Vaccinated-only sections may be seated at full capacity within that section only. Suites may also operate at 100% of suite capacity if all guests show proof of full vaccination. However, capacity for the venue must not exceed the limits established above.
- There must be at least 6 feet of distance between the Fully Vaccinated-only sections and any other section in the venue.

TESTING AND VACCINATON STATUS – DEFINITIONS AND VERIFICATION

- 1. Tested-only section:
 - a. Definition: Attendees who have tested negative and seated in a section with other attendees who have tested negative. Testing must be conducted within 72 hours before event start time. Results of the test must be available prior to entry into the event or venue.
 - b. Verification: The following are acceptable as proof of a negative COVID-19 test result: printed document (from the test provider or laboratory) OR an email or text message displayed on a phone or electronic device from the test provider or laboratory. The information provided should include name of person tested, type of test performed, and date of negative test result.

2. Vaccinated-only section:

- a. Definition: Fully vaccinated attendees seated in a section with other fully vaccinated attendees. People are considered fully vaccinated for COVID-19 at ≥2 weeks after they have received the second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or ≥2 weeks after they have received a single-dose vaccine (Johnson and Johnson [J&J]/Janssen)
 - Children (> 2 years of age) who are not eligible to be vaccinated may sit with their parent, guardian, or sponsor in the Fully Vaccinated-only sections if they are tested. Children younger than 2 do not need to be tested and may also sit with their parent, guardian, or sponsor in the Fully Vaccinated-only section. Children sitting with the parent, guardian or sponsor in a Fully Vaccinated-only section are considered for purposes of social distancing to be fully vaccinated.
- b. Verification: The following are acceptable as proof of full vaccination: Vaccination card (which includes name of person vaccinated, type of vaccine provided and date last dose administered) OR a photo of a vaccination card as a separate document OR a photo of the attendee's vaccine card stored on a phone or electronic device OR documentation of vaccination from a healthcare provider.
